SEADfund How to Volunteer

/\ Scan for: this doc online

Welcome to the SEAD-Fund. We support social justice and the environment, by providing micro-grants (£250) to organisations and individuals to kick-start good projects.

First, please sign up here: https://bit.ly/sead-signup

Here's the app we work from: https://bit.ly/sead-app

It is a Google spreadsheet underneath. Each row is a project application.

How can you help? Please pitch in! Move a project along the process, following these stages:

Stage	What to do
1. Checks	Start by giving the project a name. We wish to answer the questions: 1. Does this project promote social justice or protect the environment? 2. Will £250 make a significant difference for them? 3. Is it a good use of £250? 4. Is the organisation or person legitimate and trustworthy? a. Charities should be registered - Ask them for registration details. b. Check their social media and/or website. c. If you're concerned: a phone call to say hello and ask them about their application and their experience in similar projects. Make notes for each question - use the "Our Notes" column. When ready, set the Stage column to 2. At which point we move to…
2. Decision	Once an application has completed the checks we review it for a decision, which can be yes, no, or more-information-wanted. Update the Tracker entry to set Stage = 3
3. Payment	1. Let them know! And collect the bank details (use the Yes Email) 2. Ask Daniel to send a payment. a. Once paid, update the Tracker entry to set Stage = 4
4. Projects in Progress	Has the project reached its end date? If so: Update the Tracker entry to set Stage = 5
5. Collect Report	Email the project to ask for a report (use the Report Email). When they reply: Name the report file to match the project name. Upload the report to this folder: SEAD-Project-Reports
6. Communicate	Draft a Facebook / Instagram / Twitter post. Send it as an email to **board@sead.org.uk** and Daniel will post it.
